Statement of Objects and Reasons.

This Bill is complementary to the General Clauses (Amendment) Bill placed before the House. It has hitherto been the general practice to print in the volumes of the Mysore Code amending Acts which simply make textual alterations in previously existing Acts. Much printing space is occupied by these Acts, and no useful purpose is served by the reproduction in the volumes of the Mysore Code of amending Acts of the nature referred to, since the textual alterations made by them are incorporated in the parent Act and printed in the text in all subsequent editions, foot-notes being usually added to explain the origin of the changes. It is proposed in future not to include them in the volumes of the Code. This will greatly facilitate the work of reprinting the Code. They are published under their annual serial number in the volume of the Acts of the year in which they are passed and are easily found there if required.

The insertion of section 6 A in the General Clauses Act, as proposed in the General Clauses (Amendment) Bill, will abolish all reason for keeping amending Acts of this nature alive for, notwithstanding the repeal of such Acts, amendments made by them continue in force. The Bill contains proposals for the repeal of nearly 250 amending Acts which were passed to make textual alterations in previous enactments.

The Bill does not include for repeal any Act passed later than the close of the year 1945, that is to say, no enactment is to be repealed unless it has been in existence for 2 complete years. During this period, the publication of the enactment in the volume of the Acts of the year has been secured. Its existence has had ample time to be appreciated, and there has been ample opportunity for any modifications introduced by it in previous Acts to be noted and incorporated in their proper places.
